PUBLIC COMMENT

MOTION TO ADJOURN: Dotty Wirth adjourned the Re-organizational meeting at 7:15pm.

Call to Order: at 7:15pm Dotty Wirth called the regular monthly meeting to order.

Approval of Minutes: Motion to approve the December 2015 minutes with the noted spelling correction of *Wirth* and *advisory* was made by Mark Clark and second by John Kampo. Dan Caldwell, Dorry Wirth, and Robert Harrison approved the motion. Todd Wirth, Todd Koktajlo, Robin Bucchi, and Bob Tallon abstained. Motion passed.

Correspondence: Zoning Permit for Manheim/Vanco: The commission reviewed the paperwork regarding the permit. This info had not gone before the zoning board and the lot is not zoned for vehicle storage. It should not have been approved. The commission discussed formally requesting a site plan and are upset that the correct procedure was not followed noting that in the township code it stated that site plans need to be reviewed by the board. The first concern is about the environmental impact on the vehicle storage and the second concern is why was the commission excluded from the process. The Commission asked Dan to draft a letter to the township to address the questions and concerns of this permit with the purpose of the letter being to protect the Township and Nade and to request all site plans and documents. The issues include the following: it is not approved use for the site so no formal site plan was submitted. The Planning Board, Zoning Board, and Environmental Commission did not see the application for permit for review. No baseline analytical testing to establish pre-existing conditions was done and that could cause problems for Manheim. The Environmental Commission had requested environmental tests for that site after the “Sandy” cars were stored there but has not seen the results. Other issues is that they have extended the parking area and where they are parking cars is on a pervious surface, and the site is not zoned for a trailer.

New Business:

John Kampo asked about a group that is looking to build 5 warehouses on route 206 across from the Agway. This area is zoned as commercial.

The Commission received a copy of letter from Site Remediation regarding Crystal Lake. No action required, just a notice.

The Commission received a copy of letter regarding the landfill. No action required, just a notice.

Mark Clark discussed the trailers parking at motel on Route 206 and noted that these trailers do not belong to guests of the motel. They appear to be using the parking lot as a place to store the trucks. That location is not zoned for truck storage. Mark made a motion to notify the zoning officer about the concern over the truck parking at this location due to the concern of the wetlands. Bob Tallon second the motion and all present members approved. The motion passed.

Dan talked to Don Kneziek regarding the trees and told him that the Environmental Commission supports his approved tree list.

Bob Tallon discussed with the Commission the Watershed's continued activity of measuring the water at different sites. At Springhill Brook (near Nade on Aaronson Rd) conductivity is going up this past year. They are doing more research on this and Bob will keep the Commission informed.

Adjournment: Motion to adjourn at 8:45 pm by Bob Harrison and second by Mark Clark. All present members approved and motion passed.

Respectfully prepared and submitted:

Christine Alpin, secretary
